
Section 6

Design Review Board

- 6.1 Statement of Purpose: The Design Review Board shall serve as an advisory group with the land use permitting process that will evaluate applications for site, building and sign development or redevelopment from an architectural and aesthetic perspective with the goal of preserving the quality of Clinton's design heritage. The Board will work with the owners, builders and developers and the Town to foster the improvement of the town's appearance and increase property values. The Board will seek to avoid both excessive uniformity and excessive variety in architectural styles, and strive for development that is in harmony with its surroundings.
