I have been in touch with Marcy Balint, of the Land and Water Resources Division of the Department of Environmental Protection. We sent a referral of this application to her office, but according to DEEP standards, the referral was recommended but not mandatory. Ms. Balint has indicated, given the short time to respond and her pressing caseload of mandatory reviews (35), she will not be responding to this application prior to the public hearing on Monday. She wanted to make expressly clear that her lack of comments was not indicative of a lack of concern or interest by her Division, but simply a lack of time to respond within the timeframes allowed.
