Discussion

Talked about the PoCD consultant's workshop where it was made obvious that the green/blueway was of importance to Clinton's TOD plans in town. This breathes fresh life into our determination to continue as a group, despite our small numbers. Carrie did talk with Mark Richards about the possibility of open space on his nursery property which would serve to make a much safer route for walkers and bicyclists, taking them off Route 1 and closer to the old trolley line.

Meeting ended at 7 p.m.
