

## **Beach Park Road Bridge and Tide Gates**

Bridge # 04118 Beach Park over Hammock River

This project is being funded through a Federal Grant and is being managed by Ducks Unlimited and DEEP. This project will replace the current bridge structure which spans 22ft and replace it with a 70ft pre-stressed beam span, and a new stand alone tide gate structure composed of two self regulating and two 6x6 flap gates.

Estimated Start Date- April 1<sup>st</sup>,2025

Estimate Completion- August 7<sup>th</sup>,2026

Estimated complete road closure time span will be determined once contract award has been made and construction schedule is produced.
