

1. Do we need to include the environment on our team for this project?  
**Yes, environmental services should be included**
2. Does the Board of Education have drawings of the existing building that will be made available to the selected consultant?  
**We do have drawings, however, their accuracy is uncertain due to multiple renovation over the years**
3. Is the scope of our firm's services to include a hazardous materials survey?  
**Yes, a hazardous material survey should be included, particular due to the windows.**
4. Is the scope of our firm's services to include abatement design.  
**Yes, abatement design should be included in the proposal.**
5. Is there a construction budget for the project?  
**No, a construction budget has not been established. This is one of the reasons the study is being conducted.**
