### Required Documentation

*Attach a map of the section of road to be considered, extending for fifty feet (50') from the center of the road, with the following information shown. Such map need not be a survey, but all appropriate measurements must be shown:*

- Name of the road to be considered, name of circulator, and date;
- Specific end boundaries of portion of road to be considered;
- Property and right-of-way lines along the portion of the road to be considered;

- Stone walls if they are visible from the road;
- Mature trees;
- Structures, driveways; etc.;
- Any water body or watercourse, whether intermittent or not, and any designated wetlands;
- The width of the traveled portion of the road. If paved, measure to the edges of the road pavement. If not paved, to the edges of the traveled way. If width varies, any change in width greater than one foot (1') should be shown;
- Ledge outcroppings;
- Historical or cultural resources;
- Any intersecting roads, showing edge of pavement, if paved, or edge of traveled way, if not paved, and edge of right-of-way;
- The orientation of any scenic view seen from the road, with a description of what is seen, at approximately what distance; and
- Any drainage systems along the road or section of road proposed as a scenic road.

*I hereby attest that the road or portion of road is free of intensive commercial development and is free of intensive vehicular traffic.*
