TOWN OF CLINTON

54 East Main Street
Clinton, Connecticut 06413

Christine Goupil
First Selectman

PRESS RELEASE

We understand the emotion that everyone feels in this time of tragedy as so many young lives were violently taken in Florida, last week. It is important for us to communicate to all of our residents that the safety of our schools and our children is of the highest priority. The Clinton Police Department works closely with our school administrators to ensure that we have effective safety precautions and protocols in place. Uniformed police officers make frequent and random appearances and safety walk-throughs at each of our schools and there is a School Resource Officer (SRO) assigned to the Morgan School, full-time. They are familiar with what the normal environment looks like and the entire department trains to quickly address any and all threats. The faculty and the students of each school also practice these safety precautions on a regular basis.

The Clinton Town Government, all of its Departments, and the Board of Education work together to constantly improve these safety and response protocols so that we can provide the safest learning environment possible for our students. We maintain strong relationships with our Federal and State partners to ensure that we continue to receive training, resources, and funding to keep our community safe. We are committed to this at all levels.

Sincerely,

A blue ink signature of the name "Christine Goupil".
