93 West Main Street, Clinton, CT 06413

For Immediate Release

Traffic detour on Glenwood Road in Clinton starting the week of Feb. 24 for a \$3.7 million water main replacement project

Clinton, Conn. — Feb. 23, 2020 — Beginning the week of Feb. 24, the section of Glenwood Road between Route 81 and Liberty Street will be closed to through traffic between the hours of 7 a.m. and 3 p.m. Monday through Friday. Clinton police will be on-site to direct traffic around the construction area.

Overall, Connecticut Water will be replacing 9,500 feet, or about 1.8 miles, of a water main, which is more than 100 years old, along Glenwood Road between Route 81 and Iron Works Road. The \$3.7 million project is expected to continue through the end of September.

“This project will improve reliability of water service, enhance water quality and supply more water to hydrants along the road,” stated Craig J. Patla, Connecticut Water’s vice president, service delivery. Patla added that the project is being done through the company’s Water Infrastructure and Conservation Adjustment (WICA) program.

Since the inception of the WICA program in 2007, Connecticut Water has invested more than \$175 million and replaced more than 145 miles of water mains, which averaged 75 years of age. Connecticut Water owns and maintains 1,700 miles of water mains across the state.

Connecticut Water has notified customers along the construction route about the project. Additional information is available on the company’s website at <http://www.ctwater.com/projects>.
